# Restructured

In the fourth year as a Carnegie school, restructuring has been effected through the Odyssey program—i.e.: semester courses, long blocks (90 minutes), I-courses, and six academic courses per year for students. However, it is evident that the restructuring process is ongoing, and there are exciting changes projected for the future.

## DEAL WITH IT!

by Beth Powers

After losing eleven players from 1990's Western Mass. tournament team, this year proved to be a rebuilding year. The team was led by a core of players who had been together for three or more years as J.V. players. We are looking forward to attaining our goal of a Western Mass. bid.

# OUTLOOK FOR 1992

by Bill Goewey

The golf team was a very young and inexperienced team; they won only three matches. The season was highlighted by a near upset over the county champion, Lee. All members demonstrated potential for a very successful 1992 season.

## BOYS' SOCCER

# INTO THE FUTURE!

by Matt Muskrat

The Mt. Everett boys' varsity soccer team was a young team. With only four seniors and six juniors, the team mostly consisted of sophomores and freshmen. Therefore, look for the team in the future and look for us to be in tournaments.

# Tough Season by J. Carpenter

It was a tough season for the boys' basketball team. Although they won many close games, they had their share of heartbreakers. The boys are sure to do well in the open tournament this year. Look for next year's more-experienced team to make noise and keep up the new tradition in Mount Everett basketball.

# TogetherNESS by Amy E. Joch

Hard work and dedication during an off season has definitely paid off for the Eagles. Holding a strong third place in the Southern Division is due to scrappy play and an intense defense. TogetherNESS should get them far in the open tournament this year and in the future.

## New Goals by Jim Moynihan

This past wrestling season was a new beginning for the wrestling program. They had a new coach, new jackets, new players, and best of all, a new spirit. There was considerable improvement under new head coach Rick MacDowell and assistant coach David Lupiani. The team worked its way toward the top...where it plans to stay.

# Where is Melissa?

by Margaret Larkin

Upon her arrival in Denmark, Melissa Larkin spent two weeks at language camp learning Danish. She lived with three different families in Hinnerup: the Knud Haastrup family from arrival until November 5; the Ole Hoejen family from November 5 until February 8; and the Henning Greggers Hansen family from February 8 until departure.

Melissa attended Hadsten gymnasium as a second-form student in the language line. She studied art, English (in the third form), music, Danish, French,

and geography. She also studied English IV at Mount Everett through correspondence with Mrs. Brolli.

For fun and exercise, Melissa took up aerobics and springboard gymnastics. In February, she took a twenty-hour art course at the Aarhus Art Academy.

In March, Melissa went with on a class trip to Rome and Pompeii. Her "year abroad" concludes with an 18-day bus tour of Europe with other Rotary International exchange students.

## CHANGES

# Simply Extraordinary

by Tricia Williamson, Editor-in-Chief

If I could take a picture to express its greatness, I would be an stupendous photographer. It is awesome. Awesome. Simply extraordinary.

I remember when our new school was a hole in the ground. Trees were cut down and a common remark was, "it will never be big enough to fill up all that space." Many of the faculty and students stayed after for no other reason but to hear the roar and feel the tremor that followed each blasting. Still, nothing felt real. Teachers assured us that classroom shuffling, an

unpredictable heating system, drippy ceilings (from condensation and leaks), assemblies in the gym or cafeteria, and deteriorating rooms would all be a thing of the past by March. In other words, "It will be better in the new school."

Wow, is it better. One glance at the skylight in the foyer or the library and a brighter feeling rushed through me. There is an auditorium with a sound system and everything! The ceilings are not water-stained and the computer and science labs are equipped for the future instead of ????. Every teacher has his/her own spacious classroom to personalize and teach in with closets for storage, new desks, and carpeted floors. We have a student lounge and a beautifully landscaped courtyard. Mr. Krol's

CHANGE:

## Ne'er look for birds of this year

studio is equipped with the latest technology in communications and awaits future video yearbooks and morning announcements. Then there is the gymnasium...the magnificent eagle painted on the floor will undoubtedly witness many of the athletic teams growing, improving, and winning. Every locker, set of stairs, window, and white board adds to a new pride that glows among the Mount Everett community.

I will only have three months in the new building before graduation. I am envious of my younger friends because they will benefit longer than I from a building that took years of planning, convincing, and constructing to produce. Part of me will miss the Mount Everett I have attended since fifth grade. Meanwhile, the other 99.9999 percent cannot wait for the change.
